## CD-1800 MACHINE FEATURES

Machine Features	
Model	CD-1800
Print Head	16 Print Heads
Print Speed	240m <sup>2</sup> /hour
Material Thickness	30 mm
Printing Area	1800 mm
Ink Type	Pigment, Reaktif, Acid, Dispers
Number of Colors	8 Colors
Ink Supply System	Automatic Degass System
Max. Material Weight	150 KG
RIP Software	Miracle Power RIP / Photoprint
Power Source	AC 220v
Power Consumption	6 KW
Air Consumption	7 Mpa
Machine Weight	2500 KG
Working Environment	20-25 °C, RH 60%-80%

You can print your high-quality prints as reactive, acid and disperse with the direct-to-fabric printing machine with a printing speed of 240 m2 per hour. It is a machine where you can get maximum efficiency at high speed with a paint capacity of 10kg for each color of ink. Maximum printing width is 180cm.
